

# THE MONITOR NEWS

VOL. 5

MONITOR, ALBERTA, FRIDAY, MARCH 5th

1920.

NO. 11

## NOTICE

We must apologise for this contracted issue of "The News" but circumstances over which we had no control, i. e. a breakdown on the press, left us so pushed for time, that we had to withdraw one sheet. When we collect sufficient subscriptions that are in arrears, we will purchase a new press and then this difficulty (a recurring one) will be eliminated.

## CHURCH NOTICES St. Laurence Church

Rev. W. S. WICKENDEN, R.A., L.T.S.  
PASTOR.

Divine Service every Sunday, 7.30 p.m. Holy Communion on the first Sunday in the month.

Sunday School, every Sunday 12 noon.

Choir Practice, Thursday and Saturdays, 8 p.m.

The Co-operating Presbyterians and Methodist congregations of Monitor and vicinity will meet for Divine Worship next Sunday March 7th at 1 p.m. A cordial welcome to all people and visitors.

The Union Sunday-School meets in St. Laurence Church at 12 noon and the Bible Discussion Group meets in the Parsonage at the same hour. Subject: "The Wonderful Story of Joseph" Read Genesis chapter 37 and following. All adults who can should be present.

Rev. J. L. Wright

## Creek Valley News

A meeting of the Creek Valley School Board will be held in the schoolhouse on Saturday March 13th at 2 p.m. Ratepayers will please note that in future all School-Board meetings will be held on the Second Saturday in the month.

## Local Happenings

For Sale 300 bushels of Seed Wheat, Principally Red Fyfe. See or write A. C. Gudim, Monitor Alta. 9 11 up.

During the exceedingly high wind-storm experienced here last week, the metal chimney of the St. Laurence Church was blown down. The window of the Monitor News was blown in. The office towel was broken in half, and many small articles took flight to parts unknown.

There may be something to this Gopher Hole Oil Company, and again—there may not, according to the remarks of a youngster of this town. Not being sure of the said youngsters name, we wont give it, but he saw a gopher out the other day, and in passing remarks about it said "I dont think there is anything to this Gopher Hole Oil Co, for I saw a gopher just now, and the blamed thing still squeaks" (make your own beam outa that)

Winter returned with a bang last Tuesday, when the temperature during the night dropped to 20 below zero.

Roy Cramer was in town this week completing the arrangements for the Auction sale for E. C. Melvin, which will be held at his place on Monday March 22nd. See the posters for full particulars.

Seven foreigners, escorted by Constables Stevens and Scott passed through Monitor on Monday last, en route for the district Court at Stettler, to await their trial on charges of intimidation. The bunch were rounded up in Altario.

F. Hansen returned to town this week from points east, where he has been working. Fritz says he is glad to be home again. Incidentally, there was a Band practice on Tuesday night.

BORN.—To Mr. and Mrs. H. M. Evans, of Monitor, a Consort daughter.

Mr. Merdin Horneland, of Valhalla, Peace River, is visiting Mr. and Mrs. Liknes of Monitor for a few weeks.

W. H. Olson has considerably increased the attractiveness of his store here by putting in a metal ceiling.

At present no definite arrangements have been made for a Dance which is to be held, willy-nilly, in the Big Hall on March 17th—St. Patricks Day. Personally, we think it is about time the bachelors assert themselves, but apparently they need the standing influence of the gentler sex ere they can arrive at a definite object. Wont someone please give them a hand.

Mr. Tinkess, the genial manager of the Galvin Lumber Yards here, being under the impression that spring had come, went to work last week and varnished (?) the interior of his office with a bottle of—no, not Scotch, but Automobile oil. It looked very pretty to start with we understand, but perhaps luckily for ourselves, we were not around when Mr. Tinkess viewed his handiwork the following morning.

## ALERT ALTARIO

For the first time in the history of the little town there has been a general epidemic of a milder form of flu necessitating the closing of day and Sunday School and Church Services. The services of a trained nurse were obtained for Mrs. Almond who, we are glad to report is now on the way to recovery. Both the Almond children have been sick too also, nearly all the little Robinsons. Latest news informs us that the cases are all of a light type and everyone doing as well as can be expected.

We hear the wedding bells at Kirrimuir called our editor to attend that happy event and from him we learn that Mr. Morris and his bride had a first class celebration. There is a general expression of good wishes here on this auspicious occasion as Mr. Morris is a favorite with every body around town.

True to his liking propensities Mr. Sembury left the Arrow office for a hike along the track to deliver his lecture at Compeer. The night, however was a cold one and with a ture Nor-easter blowing it was not to be expected that the country folks would venture forth, so Ye Ed. did not open up at all, but will defer the pleasure till a later date in April. Next week he goes to the Major Opera House.

The Misses Inkster were the guests of Mrs. Cohoe of Compeer over the week end. We hear Miss Grace anticipates teaching school at Crocusdale this month.

Mrs McDonald was a visitor at the home of Mrs Oxtun for a day last week.

Part of the Red Cross Equipments has already come to town, beds bedding etc and soon we hope to hear that all is ready for the official.

Several families we hear have availed themselves of the offer of the W. Institute to supply parcels of clothing for childrens needs.

The Storm King descended upon us in clouds of snow spray on the first of March and ushered in this month of many weathers with the roar and bluster of a lion.

Miss Muriel Mundy, left for Consort Hospital where she successfully underwent an operation for appendicitis.

## NOTICE

### THE KENNEDY DRUG CO.

wishes to announce that they have just received their Spring Blackleg Vaccine and Pills from the CUTLER LABORATORIES—CALIFORNIA.

Have you renewed your subscription yet?

## Hard Winter On Stock

Only the fit have survived, and even they are run down in constitution. The best of care must be taken as danger lurks in the next few weeks. A little stock food or Tonic may save what is left, as it cleanses the blood and works on the Kidneys and liver, etc. We have a full line of fresh stock foods and Conditional Powders, also International Lofse Powder for your stock.

Give yourself a tonic—there is nothing like Wampoles tasteless wine of Cod-Liver-Oil. Special in Soap; why pay high prices for common soap when you can get the best there is for less money. Palm-Olive, 2 cakes for 25c. Jergens Glycerine violet, 2 cakes for 25c. Woodburys Facile soap 25c and Pure Castile at 5 cents per cake.

The same applies to High Grade Chocolates and Confectionery. Our spring line of high-class stationery has arrived, pads from 15c up and envelopes from 10c up.

In Gopher Poisons we still have everything. Fresh seeds and High-Grade Formaldehyde, guaranteed. Place your order now.

## Get It At THE KENNEDY DRUG COMPANY.

The General meeting of Sounding Lake U. F. A. will be held on Saturday March 6th at 2.30 p.m.

A U. F. A. dance will be held on Wednesday March 10th in Horse Shoe School house.

Admission Gents 50 cents Ladies please bring cake. The last for the season.

In last weeks paper we made a mistake. Not an unusual occurrence to be sure but in this instance we spelled the name of Mr. H. P. Botting as "Bottling". Readers will therefore take notice that on Monday February 16th, a daughter was born to Mr. and Mrs. H. P. Botting, of Monitor.

FOR SALE—A Cockshutt, 20 disc drill. In good repair and splendid working condition. For full particulars apply to J. R. Blair, Monitor P. O. 11-13. u.p.

FOR SALE—Three Purebred Buff Orpington Cockerels. Apply to T. C. Harley Monitor P. O. 10-11 pd.

The Ladies aid meet at the home of Mrs Beamer on Wednesday next, March 10th

It is reported that there is a stampede of Stenographers to Altario. In endeavoring to discover the cause therefore, we found that it is the practice there (for some people) to change Seven beautiful Dollars for writing a letter in English for a Chinaman who was not thus gifted, Ye Gods—yet some people complain of the H. C. L.

Miss Madge Baxter was a visitor in Monitor last week-end

## Local Happenings

WANTED A girl for light house-work. No washing. Good wages for work required. Mrs. Glenn M. Beamer Box 86, Monitor Alta. p. 10 11

Between now and the 31st of March, the Canadian Seed Commission has made arrangements with the various Elevator Companies to the effect that in drought stricken areas, farmers can obtain seed wheat at 35¢ cents over and above Street list prices.

Farmers will do well to note the above and to remember that this ruling expires on March 31st, 1920. Therefore those that are desirous of obtaining seed wheat from the Elevator must have their requests in before that date.

The Rev. W. S. Wickenden returned on Friday last from Saskatoon. The meeting of the executive of the Synod, which was to have been held in Prince Albert was cancelled owing to the death of the son of Archdeacon Dewdney.

E. C. Melvin was in town over the week end. He intends to hold a sale of farm machinery etc, around the 20th of the month. Watch for the bills giving date, particulars, etc.

Many people of the vicinity were disappointed last Friday when the musicians, who were scheduled to play for a dance in the Big Hall here, failed to put in an appearance. However, the troop of Teapishore were not absolutely left in the hole for Messrs Grace (drums) and Gabrielli and Warner (piano) filled the bill to a certain extent, so there was some dancing indulged in.

## SEE HERE FARMERS

am getting a carload of Barbed Wire, nails, General Hardware and aluminum ware.

what do you need in Farm Implements? we have the goods.

what about Machine extras—Plowshares for your plows etc.

## A Constipation Cure Sold on Guarantee

Dr. Hamilton Says His Remedy Never  
Fails to Cure Quickly

Mine is a marvellous remedy. There are others, but not one possesses the peculiar merit so prominent in mine.

With my remedy I guarantee to cure constipation.

I also guarantee to prevent it. My preparation, which is in pill form, gives tone and regularity to the bowels that quickly rid the system of effete matter, accumulations of bile and other injurious results of constipation.

I call my pills Dr. Hamilton's. I am sure they are safe, because composed of such health-giving vegetable extracts as Mandarica, Butter-nut, Hyoscamus and Dandelion.

My pills are not harsh or drastic. They cause no pain, no distress; they are prescribed by physicians because of their mildness and certainty to cure.

For women and children I know of no better medicine for keeping the system healthy. For men they are perfect.

I have proved their merit in biliousness, constipation and headache, and can strongly recommend them in these troubles.

My personal guarantee stands behind every box of Dr. Hamilton's Pills of Montreal, Quebec, 25c. per box.

## Women Have Task Bettering Conditions

Mrs. McWilliams, of Winnipeg, Addresses McGill Alumnae Society

Mrs. R. F. McWilliams, of Winnipeg, speaking at a special meeting of the Alumnae Society of McGill university, held at the Royal Victoria College, Montreal, said that upon the men of the Dominion will fall the burden of the reconstruction work in Canada after the ravages of war, but the part of the women will be to be largely responsible for the bettering of social conditions and the maintenance of public welfare.

Women of the western provinces had, she claimed, brought about legislation providing for better working conditions and better wages for the factory and department store employees of the West, and in Manitoba alone \$200,000 had been granted to provide mothers' pensions. She contrasted the refusal of Quebec to allow women to practice law there, and the failure of women to secure the franchise in Quebec with the fact that women sat in several of the western legislatures.

## Edison Celebrates Birthday

Wizard Says That Curse of the Day Is Over-Eating

Messages from President Wilson and scores of other statesmen, scientists, men of letters, old-time telegraphers and others were received by Thomas A. Edison, congratulating the "electrical wizard" on having reached his 73rd year.

Mr. Edison is still hale and hearty. "My body," he said, "is a machine carrying my mind around, and I'm taking good care of it. I'm not eating more than a pound and a quarter of food a day, all carefully balanced. The people of this country eat three times too much. If the Germans ate only as much as I do they could afford to sell food. I used to say I'd live to be 85, but I think I'll extend that time a little."

Asked what he was working on now, the inventor said he was not prepared to make any definite announcement, but his latest investigations had to do with ether. He said he believed radio communication with Mars to be possible. Incidentally he said he was sorry to see a man like Sir Oliver Lodge depart from his scientific training.

Fair Enough  
Patient—I tell you what I'll do; I'll compromise with you, doctor.

Doctor—Compromise? What do you mean?

Patient—Well, I'll pay you for your medicine and return your visits.

**MURINE**  
Eyes, Redness, Swelling, Itching, Smarting, Burning, or Sore, Irritated, Inflamed or Granulated. Use Murine often. Safe for Infant or Adult. At all Druggists in Canada. Write for Free Eye Book. Murine Company, Chicago, U.S.A.

## Great Britain's Financial Strength

London Supplies Needs of Continent of Europe

London—Great Britain is fundamentally sound, both financially and commercially, says the American Chamber of Commerce of London in a statement referring to difference in the financial position of Great Britain and the continental European countries. The chamber expresses the belief that the recent unprecedented drop in Sterling exchange on the United States makes it particularly desirable that the opinions of each side of the Atlantic concerning this question should be understood on the other side. After a thorough discussion with the leaders of British finance, illuminated largely by the addresses of the chairmen of five leading British banks to their stockholders in annual meetings, the chamber of commerce has prepared a message to the American business public. The message reads as follows:

The collapse of the pound sterling in New York is no index to Great Britain's financial strength or weakness. London is today as before the war, the monetary centre of Europe. Without adequate assistance from American credit in Europe, Great Britain has been forced to supply the continent as well as those of her own traders.

Dollar exchange is really New York-Europe, not New York-London exchange. Great Britain is neither bankrupt nor anywhere near it, although her external debt is larger than ever before in her history. This debt was incurred mainly to supply the needs of her continental allies, and she is owed approximately twice as much as she owes America. While the United States may fairly expect to collect all her British debt, Great Britain is preparing to write off 50 per cent. of her continental debts.

"In spite of these facts, British business and finance are in a fundamentally sound condition.

"Business men and workers are recovering from the demoralizing effects of the war. Their customary energy is reviving and British factories are increasing their output. According to estimates made public by one bank chairman, the present year's exports will produce a profit of from \$1,000,000 to \$1,500,000,000. The expression 'we are rounding the corner' is now heard on all sides. Neither British bankers nor the British government expect or ask further government or long term loans from the United States.

"Appeals for American credit on behalf of the destitute areas of Europe should not be misconstrued as veiled appeals for assistance to Great Britain. Such emphatically is not the case. British bankers and business men look to American bankers and business men only for such friendly facilities as they have enjoyed and have themselves afforded in the past."

## More Large Timber Limits Developed

The Port Moody limits of the Smith-Dollar Company have been purchased by the Canadian Robert Dollar Company, and the latter company will commence logging at once, is an announcement made by A. Melville Dollar, managing director of the Canadian Robert Dollar Company. The Port Moody limits contain about 120,000,000 feet of timber, and it is expected will provide work for the logging crews for five years. The logs will be used to feed the company's mills at Dollarton, on the north arm of the inlet.

The more some people tell you the less you remember.

## An Old Wool Dress Is Now Worth \$50

"Diamond Dyes" Turn Faded, Shabby Apparel Into New

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings—everything.

The Direction Book with each package tells how to diamond dye over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

Your mouth tastes like all the mean things you ever did—mixed together, then you need

**BEECHAM'S PILLS**

Your mouth is a good indication of the condition of the stomach and bowels.

Worth a Guinea a box  
Sold everywhere in Canada. In boxes, 25c., 50c.

## Personal Names

For Mountains

One is Macdonald. In Honor of Inventor of Wireless Telegraphy

Another collection of decisions of the Geographic Board of Canada respecting place names, has recently been issued. Most of the new names have been conferred upon places in the west, particularly upon places in the mountain sections of Alberta and British Columbia. One new name to our geography, but known the world over, is that of Marconi, which is conferred upon a mountain in the Rockies in honor, of course, of Guglielmo Marconi, the inventor of wireless telegraphy, one of the latest brilliant achievements of science.

Two other personal names have been conferred as tributes to men who added to the knowledge of the geography of Canada. These names have been conferred upon mountains. One in British Columbia has been named Turnbull, after J. M. Turnbull, late professor of mining in the University of British Columbia at Vancouver; and a mountain in Alberta, also a creek that flows into the Red Deer River, have been given the name, Tyrrell. In fact, the name now confirmed was conferred by Dr. G. M. Dawson, in 1885, after J. B. Tyrrell, M.E., whose explorations in the new northwest have done so much to make that vast region known.

## Good Horses in Demand

Heavy Draft Stock is Only Kind That Is Wanted

There is no market for common horses at the present time, but good, heavy, sound horses weighing 1,700 pounds or more are selling in the east at about \$350 a head, announces R. W. Clark, extension specialist for the Colorado Agricultural College. A representative of a large New York firm visited Chicago a few weeks ago and was unable to secure the kind of horses suited to his need. They were not on the market, although he was prepared to pay almost any price. Favorable conditions will come only when the farmer learns that the fundamental causes must first change, and it is he who must bring about such changes.

Now is the time for farmers to get the best kind of stallions and build up by retaining the best females for breeding purposes.

## HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"By another who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles."

"I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them." Mrs. MARGIE BOYD, 1421 5th St. N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a trying course.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

## Discovery of New Territory in Australia

David Lindsay Makes Important Find In Northern Part of the Commonwealth

David Lindsay, the explorer, has discovered large tracts of new agricultural land in the northern territory of Australia which previously had been marked upon maps as desert land.

The explorer reports that water is freely obtainable at a shallow depth, and that cotton can successfully be grown in the region. He asserts that cotton already is growing wild over scattered areas there.

David Lindsay, who was born in Australia in 1856, has carried out wide tours of exploration in the country. Notable among his discoveries was the existence of a large aurealis area in Australia in 1890, which resulted in the finding of the great goldfields in that region.

Air castles of a bachelor are usually constructed of smoke.

## DON'T NEGLECT A RHEUMATIC PAIN

Go after it with Sloan's Liniment before it gets dangerous

Apply a little, don't rub, let it penetrate, and good-by twinges! Same for external aches, pains, strains, stiffness of joints or muscles, lameness, bruises. Instant relief without numbness or soiled clothing. Reliable, the biggest selling liniment year after year. Economical by reason of enormous sales. Keep a big bottle ready at all times. Ask your druggist for Sloan's Liniment. 35c, 70c, \$1.40. Made in Canada.

**Sloan's**  
Liniment  
Keep it handy

Canada exported to Great Britain in 1918 only about 2 1/2 per cent. of the total importation of beef there. During the past six months there has been practically no export of beef—a fact touching production and marketing that should receive the joint attention of farmer and packer.

## Warts Disfigure the Hands

But can be painlessly removed in twenty-four hours by the use of Putnam's Wart and Corn Extractor. Fifty years in use and still the best. Insist on getting "Putnam's" Extractor, 25c at all dealers.

## Matrimony in Scotland

Large Number of Couples Are Becoming United in Glasgow These Days

Glasgow.—Glasgow recently saw the crest of a matrimonial wave. Fully 50 couples with their witnesses lined up before the sheriff to swear that they had fulfilled the legal requirements under the marriage schedule, which is afterwards completed at the office of the registrar.

This so-called "irregular form" of marriage, which is in every respect legal in Scotland, has been very popular in Glasgow this year.

Fully 4,500 couples, from all classes and of particularly all marriageable ages, have appeared before the sheriff. This is easily a record, beating last year's figure by 2,000, and the record war rush by 1,000.

Big wages have tempted many working class couples to marry, although houses cannot be obtained.

We have been using MINARD'S LINIMENT in our home for a number of years, and use no other Liniment but MINARD'S, and we can recommend it highly for sprains, bruises, pains or tightness of the chest, soreness of the throat, headache or anything of that sort. We will use it once a single day, for we get a new bottle before the other is all used. I can recommend it highly to anyone.

JOHN WAKEFIELD,  
LeHave Islands, Lunenburg, N.S.

## Doubling the Insult

He—I seem to know that atrociously ugly man over there.

She—That's my brother.

He—Oh, how stupid of me not to have seen the likeness.

W. N. U. 1908

## ABOUT YOUR CHILBLAINS!

What are they? A mild form of frost-bite—a chilling of the part to such a degree that inflammation is set up, causing a tingling pain, excessive irritation and often swelling. ZAM-BUK cures chilblains by drawing out the inflammation, thus ending the pain and irritation and reducing the swelling.

Miss Annie Leppard of Beaverdale, Ont., says: "I suffered agonies from chilblains and used many remedies, but nothing gave me any ease until I used Zam-Buk, which, after a little perseverance, completely rid me of this painful ailment."

Regular applications of Zam-Buk will prevent a recurrence of the trouble. Keep it handy. 50c. box.

**Zam-Buk**

Air castles of a bachelor are usually constructed of smoke.

**Danger—Colds**  
and more serious complaints are contracted in mean weather. Be protected. Take

**GRAY'S SYRUP**  
of  
**RED SPRUCE GUM**

from the first sniffle or sneeze. Stop it in time and do not gamble with your health. Used over 45 years in treating coughs, colds and all cold complaints. Everybody buys the Large Size. Montreal, D. WATSON & CO., New York.

Hogs sold off Canadian farms in 1919 exceeded \$80,000,000 in value. More than 40 per cent. went direct from the farm to the packing plants.

## "Cold in the Head"

Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists 75c. Testimonials free. \$100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

## Value of B.C. Forest Products

Victoria, B.C.—The total value of the forest products in British Columbia for the year 1918 is placed at \$70,285,094, as against \$54,162,523 in 1917; \$48,300,469 in 1917, and \$35,528,000 in 1916, according to a statement by the Hon. T. D. Pattullo, minister of lands.

## Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 25c a box at all dealers, or Richmond, B.C. and 425, Toronto.

## BABY COVERED WITH ECZEMA

When 4 Days Old, Cross and Cried. Cuticura Heals.

"My baby brother had eczema which began when he was about four days old. It came in little pimples and then a rash, and he was covered. He was so cross that he could not sleep, and he cried."

"This lasted about two months before we used Cuticura. It helped him, so we bought more, and he was all healed after we had used two cakes of Soap and two boxes of Ointment." (Signed) Miss Almira Williams, Youngs Cove, N. B., May 22, 1918.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes.

## The Exchange Problem

No one question is commanding such widespread interest in all countries as the problem of equalizing rates of international exchange. It is a problem which first engaged the attention of financiers and governments. Soon, however, it called for the careful consideration of all mercantile houses, manufacturers, and others engaged in large enterprises doing an international business. Now it is a matter of concern to every individual purchaser. It has now reached that acute stage where it is influencing politics, international and domestic, and is vitally affecting all channels of trade and commerce. In the newspaper press, reviews, and in private conversation it has eclipsed even discussions of the Peace Treaty and the League of Nations.

So far as Canada is concerned, our money is at a premium in practically every country but the United States, where it stands at a very serious discount. British money is at a discount in both Canada and the United States, so, too, is French, Belgian, Italian, German and other foreign currencies. The United States alone enjoys the distinction of having its money at a premium in all countries, while Canada comes second with its money at a discount only in the United States.

Canada has always purchased more extensively in the United States than that country has in Canada. In other words, our imports from the States have always exceeded our exports to that country. On the other hand, our exports to Great Britain have always exceeded our imports from the Old Land. In former years we have, therefore, been able to liquidate our "adverse balance" in the United States by British funds on New York; that is, we paid our debts in the States with money which Britain owed to us.

At the present time we cannot do this because, while Great Britain and other European countries owe Canada far more than this country owes the United States, they are not in a position to pay us in cash or in securities negotiable in the States, because we have been forced to sell to them on credit on the one hand, and on the other they, too, owe the States large sums in excess of what the States owe them.

Therefore, while waiting for that time when Europe will be able to pay Canada what it owes us, we must pay

the United States what we owe it either in gold or in goods. In the three years 1917, 1918 and 1919 Canada bought goods from the United States to a total of one billion dollars in excess of the value of the goods sold by us to the States. Notwithstanding this heavy debt to the United States, the American Exchange National Bank of New York estimates that Canada has a favorable balance with the whole world of over \$500,000,000.

In the meantime, and until Canada can collect from other countries, there is only one of two ways, or a combination of both, whereby Canada can right her balance with the United States. (1) By buying less from the United States than in the past, and buying more at home and from Great Britain, France and other countries; and (2) by producing in Canada in larger quantities those things which the United States will buy from us, and energetically proceeding to sell such goods across the line.

The fact that the Canadian dollar has at present a purchasing power of only 80 or 85 cents in the United States will, in itself, operate to discourage Canadian buying there, while the fact that our dollar will buy more than a dollar's worth of goods in Great Britain will encourage heavier purchases there. This will help to right exchange conditions between Canada and the United States, and will also help the Motherland. From the purely Canadian standpoint, however, the main thing is that our people should produce in ever increasing volume those things which are in demand in the United States and which we can most easily and profitably export to that country.

At the same time, the Ottawa Government would be well advised at the approaching session of Parliament if it loses no time in adopting the policy advocated for so many years by the farmers of the West and increase the preference accorded to British goods under the tariff to fifty per cent. This would greatly assist Great Britain to enlarge her sales in Canada, and, to the extent that she does so, to replace United States goods, thus assisting both Canada and Britain. It would likewise result in a lowering of Customs taxation on the mass of the Canadian consuming public.

Close American observers of conditions are becoming alarmed over the prospect of losing a considerable part of their Canadian business—Canada is the best customer the United States has—and leading financial men there are urging adoption of a policy which will have the effect of raising the value of the Canadian dollar across the line back to par.

Canadians, however, should not depend on United States action, but should by hard work and unremitting energy increase production in all lines, and thereby enormously increase their export trade to the United States, and thus offset their heavy purchases of needed commodities from that country. And the Ottawa Government should encourage and assist in this work by substantially lowering, or altogether removing, the tariff on all implements of production, coupling therewith a larger tariff preference to British goods.

"Can you tell me the funniest thing you ever saw?"

"Yes, sir, I can. It was a man trying to blow up a solid rubber tire on an automobile."

A little nonsense then and now may stir up an awful row.

## CHILBLAINS

Easily and Quickly Cured with EGYPTIAN LINIMENT

For Sale by All Dealers Douglas & Co., Prop'rs, Naperville, Ont.

Oxo Cubes contain the rich nourishment of prime beef in so convenient a form that they are handy for use anywhere, at any time. Just a cube—hot water—and a biscuit or two—and a light sustaining meal is ready.

He May Be A Dummy

"Who is Edith to marry?"

"His name is Bridge."

"Good gracious! Is she carrying the craze as far as that?"—Boston Transcript.

## WINTER WEATHER HARD ON LITTLE ONES

Our Canadian winters are exceedingly hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms, takes cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They are a mild laxative which regulate the stomach and bowels and thus prevent colds. The Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

After pocketing his fee the congratulations of the minister officiating at a wedding are genuine.

Minard's Liniment for sale everywhere.

He who has no friends doesn't have to lend them money.

## CURE YOUR COLD WITHOUT MEDICINE

Just Breathe "Catarrhozone." Its Balsamic Vapor Does the Rest

It's a tiny germ that sets up the irritation that makes colds so disagreeable. Colds die quickly if Catarrhozone is used, simply because the vapor of Catarrhozone instantly destroys the germ that keeps the cold alive.

Every breath you draw through the inhaler fills the whole breathing apparatus with pure piney essences that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared, and every trace of cold or catarrh is cured. Catarrhozone is so sure, so pleasant, such a safe remedy for winter ills, that you can't afford to do without it. Get the dollar outfit; it lasts two months and is guaranteed to cure. Small size 50¢ trial size 25¢, all dealers or The Catarrhozone Co., Kingston, Canada.

The Disappointing Peace

This is not the peace whose hope sustained us through the dark days of the war. The new world that we thought we were making then is still unformed; the spirit of international rivalry and distrust is not easily chained up; and instead of a world animated by the ideal of common good, we have a world, partly distracted by the rivalry between the fiercely opposing principles of constitutional progress and partisan tyranny, partly affecting an indifference towards this issue which it cannot really feel, and indulging the old hopes of political isolation that broke down so completely during the war.

A good many moving spectacles are due to heartless landlords.

When the spider captures a fly he considers it a net gain.

W. N. U. 1305

## Developing Natural Resources

Drilling For Oil and Gas in Southwestern Saskatchewan

East End, in southwestern Saskatchewan, on the C. P. R. Branch line, known as the Lethbridge-Weyburn line, promises to be the centre of oil and gas drilling. Negotiations have been completed by the Imperial Oil Company for the purchase of the oil drilling outfit there with a view, after a geological survey has been made in the spring, to explore possibilities for oil and gas. East End is also known as Frenchman's Creek and White Mud on account of the peculiar nature of the soil there. It is the centre of large pottery works.

## LET "DANDERINE" BEAUTIFY HAIR

Girls! Have a mass of long, thick, gleamy hair

Let "Danderine" save your hair and double its beauty. You can have lots of long, thick, strong, lustrous hair. Don't let it stay lifeless, thin, scraggly or fading. Bring back its color, vigor and vitality.

Get a 35-cent bottle of delightful "Danderine" at any drug or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs this stimulating tonic, then its life, color, brightness and abundance will return—Hurry!

Even the lines of a poor poet are apt to be cast in pleasant places—when he goes fishing.

Minard's Liniment Cures Dandruff.

Even when a man modestly admits that he doesn't know everything, he is secretly proud of the fact that he knows everything worth knowing.

## NEURALGIA

If you know the nerve-racking agonies of Neuralgia you will bless the day that

Templeton's Rheumatic Capsules

were discovered. This famous remedy is absolutely guaranteed to give relief to sufferers from Neuralgia. Send for free sample to Templeton, 142 King St. W., Toronto. Doctors recommend them, and reliable druggists sell them for \$1.04 a box.

## ASTHMA

Templeton's RAZ-MAN Capsules are guaranteed to relieve ASTHMA. Don't suffer another day. Write Templeton, 142 King St. W., Toronto, for free sample. Reliable druggists sell them at \$1.04 a box.

The past can teach us some splendid lessons if we look closely. We have had great men and great movements; but the future as well as the present offers us even greater opportunities if we will only avail ourselves of them.

A Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. There is only one "Bromo Quinine." E.W. GROVE'S signature on the box. 30c.

The first medal recorded in history was given by the emperor of China in the first century to his military commanders.

WHEN you buy a phonograph you want to be sure that you are getting the best instrument to be had for the money—one that will give lasting satisfaction. But how can you be sure unless you know what to look for? This book outlines the vital points that should be considered: The author, Henry Purfoot Eames, I.L.B., is a renowned Concert Pianist, Lecturer and Director of the Pianoforte Dept., Cosmopolitan School of Music.

THE Brunswick "All Phonographs in One" answers every one of the rigid tests which Mr. Eames says should govern phonograph purchases.

# Long Promised Home Rule Bill Is Presented

London.—The bill for Irish home rule long promised by the government, was presented in the House of Commons here. The first reading was of the title alone, and was a mere formality, preliminary to taking up the measure proper.

The present bill, it is understood, adheres fairly closely to the measure as outlined by Premier Lloyd George in the House on December 22 last. The government project centres on setting up two parliaments in Ireland, one for the south and one for the north.

Home rule, as the government hopes to give it to Ireland, is based primarily upon the declaration of the Premier in his December speech that Great Britain cannot accept separation, but the largest opportunity will be given to the Irish people to unite on the constitution of parliament in the course of time, which will embrace Ireland as a whole.

For the north of Ireland the area embraced will probably include the six counties mentioned by the Premier in his original outline, with possibly some slight modifications, as a consequence of which the northern parliament will be a very much smaller body than the southern organization.

One of the fundamental features of the bill has always been a council representing the two parliaments, and it is understood that this council will derive its powers from the two bodies which will be responsible for its selection. The proposed legislatures will have extensive powers, and also representation in the imperial parliament.

Such matters as education, local government, agriculture, transportation, municipal affairs, insurance and the collection of taxes will be under the control of these two legislatures, while matters of more serious import to the empire, such as foreign affairs, defence, navigation and the higher judiciary, are reserved for the decision of the imperial government.

Mr. Lloyd George announced that the proceeds of land annuities in Ireland would be given as a free gift to the two parliaments, and estimated that this would amount to 3,000,000 pounds for the year. This sum, or other industrial provision, will be made for the maintenance of the parliaments, if the government's bill is accepted.

## Five Burned to Death

Montreal.—A woman and four children were burned to death at Greenfield Park East, about fifteen miles from here. From the meagre details it is presumed they were casualties when the house in which they lived took fire, and they were unable to escape.

## This Soldier Knows

### What Helped Him

#### DODD'S KIDNEY PILLS CLEANSE OUT HIS RHEUMATISM

He Found in the Old Canadian Remedy Relief That the Hospitals of Egypt Could Not Give.

Cape St. George, Nfld., March 1.—(Special).—Eugene Cornet, keeper of the light and fog alarm here, and who was overseas with the Newfoundland forces, is a firm believer in Dodd's Kidney Pills as a help for kidney disease and rheumatism.

"For two years I suffered from kidney disease and rheumatism," Mr. Cornet states. "I was treated for them in the hospitals in Egypt. But it was five boxes of Dodd's Kidney Pills that cured me." Dodd's Kidney Pills are purely a kidney remedy. By putting the kidneys in shape to strain all the impurities out of the blood they remove the uric acid, the cause of rheumatism. With the kidneys cleansing the blood, there can be no uric acid to crystallize in the muscles and cause those excruciating pains known as rheumatism. Ask your neighbors about Dodd's Kidney Pills.

## U.S. Suspends Trading With Russia

Capture of Vladivostok By Social Revolutionaries Causes Halt in Business

New York.—Trade between the United States and Siberia, which had fair to run into the millions, has been suspended as a result of the capture of Vladivostok by Social Revolutionaries.

Thousands of dollars worth of furs are reported to be in Vladivostok awaiting shipment to the United States.

## Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Women shouldn't cry; it's more picturesque to sob.

## The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which bubble and press down on the heart and interfere with its regular action, causing faintness and dizziness. 15 drops of Mother Selig's Carative Syrup after meals sets digestion right without allowing the heart to beat full and regular.

## Another Epidemic OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after-effects, such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify the system against this terrible plague. If you had the "flu" before and it left you with any bad after effect, Milburn's Heart and Nerve Pills will bring you back to health and strength.

Mrs. C. C. Palmer, Keppel, Sask., writes: "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."

Price 50c a box at all dealers or mailed direct on receipt of price to The T. Milburn Co., Limited, Toronto, Ont.

## Moezel to Succeed Erzberger

Berlin.—Under Secretary of State Moezel, who on January 27 was named by Matthias Erzberger as deputy in the finance ministry, has been selected to succeed Herr Erzberger, who has resigned as head of that department.

## What Wonder Health Restorer Does for Suffering Humanity

THOUSANDS THROUGHOUT ALBERTA AND CANADA CURED OF TERRIBLE DISEASES BY THIS WONDERFUL HEALTH-RESTORING REMEDY

Well-Known Edmonton Man Cured of Tuberculosis in Six Months

George Harris, Calgary. "I have recommended your Wonder Health Restorer to over a hundred people here for what it has done for me. I got so low with Tuberculosis that leading doctors only gave me six months to live, saying I was a hopeless case. Being run down, I gave up all hope of recovering. Hearing of this wonderful cure, I decided to try it, and after taking it for six months, I was completely cured and gained over fifty pounds. — Yours gratefully, Chas. M. Hamilton, 11222 90th Street, Edmonton, Alta.

Prominent Alberta Minister Cured of Stomach Trouble

Mr. George Harris, Calgary, Alta. Dear Sir,—For several years I have had a form of stomach trouble, which at times has caused me great suffering and which impaired my general health. Since taking your medicine I have been relieved in such a satisfactory way that I do not hesitate to recommend it as a tonic for building up one's health. — Yours very truly, (Rev.) H. D. Marr, 706 Centre Street, Calgary.

Prominent Champion Citizen Cured of an Ulcerated Stomach

Mr. A. S. Roberts, gent's furnisher, Champion, Alberta, writes to say that after a six month's treatment of Wonder Health Restorer he has been completely cured of ulceration of the stomach, from which he suffered for years. Previous to taking Wonder Cure he had been treated by the best medical men in the County of Alberta. He recommends the Wonder Health Restorer to all sufferers.

Rheumatism, Sciatica, Lumbago, Nervousness, Neuritis, Stomach Trouble, Fevers, Asthma, Consumption, Skin Disease, Hiccups, Heart Troubles, Kidney Troubles, Catarrh, Constipation, Flus, and pains of all kinds, besides children's troubles. It relieves almost everything, when taken in time, besides building up the whole system.

FOUR OF THE THOUSANDS CURED BY THIS WONDERFUL REMEDY:

Rev. Father Newman, St. Mary's Cathedral, Calgary.  
Mr. A. N. Hoshik, C.P.R. Passenger Engineer, Calgary.  
Mrs. F. E. Mason, Oyen, Alberta.  
W. J. Collins, Commissioner of Police, Banff, Alta.

ORDER YOUR TREATMENT TODAY

The price of WONDER HEALTH RESTORER is three bottles (including one 75c bottle Thymus Litter Tonic), postpaid, \$5.00. Full book of directions with every bottle.

Sole Manufacturer for Canada and the United States

Department "A," 213 24th Avenue West, Calgary, Alberta, M.V.

# All Trade In Foreign Bonds Now Prohibited

Toronto, Ont.—An embargo on trading in stocks, bonds, or other securities, from countries outside Canada, will go into effect immediately. This drastic action has been taken by the financial interests of the Dominion at the request of Sir Henry Drayton, Minister of Finance, in order to protect the home security market.

Trading with American exchanges for cash will thus come to an end for the time being, though there is no restriction against buying on margins, except that imposed by adverse exchange. Action was forced by the flooding of the Canadian market with bonds and stocks from Britain, under which the sellers reaped a handsome profit owing to the premium on the Canadian dollar.

In a statement issued by the bond dealers' association, intimation was given that action will be taken to prevent the importation of non-essential securities, especially from the United States, and that the issuance of new securities for non-essential purposes in Canada would be discouraged.

Agents of American manufacturers in Toronto, who learned of the proposed new restrictions, were greatly agitated and anxious for information as to the probable course of parliament.

Madrid.—Thirty houses and a church have been destroyed by a tornado which swept over the town of Benicarlo, on the eastern coast of Spain, 80 miles northeast of Valencia.

## Russian War Loss

Libau.—Russian Soviet newspapers received here estimated the Russian losses through the war at 32,000,000,000 rubles. The Russian newspaper says the country is unable to export anything at the present time, but on the other hand finds it necessary to import provisions valued at one billion rubles.

## KOALORE

Prolongs the life of coal, coke or slack in the fire. Increases the heat. Decreases smoke, soot and ashes. Does not smelt or give off fumes. Is non-poisonous and absolutely harmless. A remarkable British invention for giving

## CHEAPER FUEL

by scientifically increasing the heat and life of the fire. A 75c package will treat one ton of fuel.

## TWO OF OUR MANY TESTIMONIALS

Calgary, Alta., Jan. 26, 1920.

The Alberta Koalore Syndicate, Calgary, Alberta. Gentlemen,—I take great pleasure in adding my testimony to so many others which you have received in favor of Koalore. I can truthfully say it is saving fifty per cent. on the coal bills. I tried it in my stove at home just out of curiosity, and I was greatly surprised at the result. I found that after treating my coal with Koalore that I had to use only the amount of coal and I got more heat with no smoke and no smell, and I found it so easily applied to the coal I would not be without it as I consider it has saved my coal bill in half.

I am, yours truly, JOHN F. BARRY.

85 Six-A Street.

Calgary, Feb. 12, 1920.

PHILIPS BROTHERS, Sanitary and Heating Engineers, Calgary, Feb. 12, 1920.

The Koalore Syndicate, Molson Bank Building, Calgary. Dear Sir,—We have thoroughly tested Koalore and have much pleasure in recommending its use. We obtained very satisfactory results with both Steam and Lump Coal; we also found that it not only saves in coal used, but also produces an intense heat.

If the public would get familiar with its use before next winter, I am sure that it will not only save them money, but they would get far better results.

Yours truly, PHILIPS BROS., Per H. C. Phelps.

## Big Game Now Extinct

Speaking of the brontosaurus, if anyone ever did, one might paraphrase:

"I never saw a dinosaur. I never hoped to see one." Yet, according to reports accredited to M. Capell, Belgian explorer, a live dinosaur, a brontosaurus, has been found in Africa.

Now that the dinosaur is with us, potentially, big game enthusiasts will be interested in this description of prehistoric big game, quoted from a communication to the National Geographic Society by Barham Brown.

"To-day we must go to Africa for the biggest game, but there was a time in the dim distant past when America produced animals larger than any now living. That was so long ago that nothing remains of these creatures except their bones, any they are turned to stone."

"The animals are dinosaurs; for the moment we will call them lizards—not the creeping, crawling kind, but huge reptiles that stalked upright through the jungles, rivaling in size the elephant, the hippopotamus and the rhinoceros."

"The place is Alberta, Canada, and the time of their existence 3,000,000 years ago."

"In these marshes of prehistoric times dwelt a host of reptiles, some large, some small, and of various forms, flesh-eaters and herb-eaters, but all sharing certain characters in common and known as dinosaurs. Not any were closely related to any living reptile, yet they had some characters common to the lizards, crocodiles and birds."

"Of the kinds characteristic of the period one species, an herb-eater named Trachodon, was more than 30 feet long and about 15 feet high when standing erect. Its head, with broadly expanded mouth, resembles that of a duck, but back of the beak there are more than 2,000 small teeth, disposed in many vertical rows, each containing several individual teeth, the new ones coming up from below as the old ones wore out."

"The long hind legs terminated in three large hoofed toes, and the shorter slender front feet were partly webbed. A long, thin, slender tail acted as a powerful swimming organ, and the body was covered with rough tuberculate skin. Having no means of defence, it lived chiefly in the water, where it was free from attacks of the flesh-eaters."

"Along the shores lived Ornithomimus, bird-like as the name implies, one of the most remarkable of the dinosaurs. A skeleton found in 1918 shows it to have been a toothless creature, the jaws sheathed like the beak of a bird."

"The bones were light and pneumatic like those of birds, but the skeleton closely resembles that of the flesh-eating dinosaurs. It was about 12 feet in length, with long, slender hind legs and shorter front legs. This was an agile creature, different from the typical flesh-eaters in feeding habits and doubtless a shore-living type that may have fed on crustaceans."

"On land, there were hoofed quadrupedal herbivorous kinds, some, like Monoclonius, having an immense skull, six feet in length, with three horns, a short one over each eye and a longer one above the nose. The jaws terminated in a sharp clipping beak, like that of a turtle, and further back in the mouth there were rows of double-rooted teeth. The back of the skull was developed into a broad shield, with scalloped border, extending over the neck. It was ancestral to the later Triceratops."

"Strangest of all was the herbivorous Ankylosaurus, a stocky, short-legged, big-bodied creature, completely encased in armor. Dermal plates covered the skull, followed by rings of plates over the neck and rows of flat plates over the back and hips. Its tail terminated in a huge club, and the belly was covered by a pliable mosaic of small, close-set plates. It was further protected by a movable plate that could be dropped down like a shutter over each eye, thus completing its protection from insects and formidable foes."

**Frog Anatomy.**  
If size of skull were an index of brain-power, the frog would be an intellectual prodigy. Its cranium is huge, but, alas! its brain is very small.

The frog has only nine vertebrae—fewer than any other animal with a backbone possesses. Lacking ribs, it is obliged to swallow by gulping the air it breathes, instead of projecting its chest as we do and creating a vacuum for air to pour into.

Its pelvic hinges on to its backbone so as to give it a joint in the middle of its back, and it has another hinge in each foot. These extra joints are a great help in leaping.

Frogs is in his way the most wonderful animal we know, inasmuch as he begins life as a vegetable-eating fish (or the equivalent), and later on turns into a carnivorous air-breathing land quadruped.
